

Government RRO Price Cap

On November 22, 2016, the Government of Alberta announced an RRO energy price cap of 6.8 cents/kWh to be in full implementation from June 2017 to June 2021.

During the period from June 2017 to June 2021 that the rate ceiling is in effect, consumers on the Regulated Rate Option (RRO) will pay the lower of the market rate or the government's ceiling rate.

Historically, regulated electricity rates have been extremely volatile – increasing by as much as 65% (or 4.66 cents per kilowatt hour) in a single month (April 2011) and crashing by as much as 42% (or 4.14 cents per kilowatt hour) in a single month (June 2014).

Stable Rate Option

As of May 1, 2017, the Stable Rate Option for Lakeland REA members will be reducing from 7.5 cents/kWh to 6.49 cents/kWh for a period of 1 year.

If you have any questions in regards to the Stable Rate Option, please call the office at 780-632-6112.
