

LOOK UP!

YOUR SAFETY IS IMPORTANT TO LAKELAND REA!

With a slow and wet start to spring and the need to finish harvest and field work from last fall, Lakeland REA wants to remind you to be safe around power lines. As farm equipment has gotten increasingly larger in size, overhead safety must be a priority. Be sure that you know the location of overhead power lines. If you have purchased any new cultivators, air seeders or grain augers, please contact our office and we can ensure that your equipment is within the height of the power lines on your property. Exercise caution if equipment is higher than 4.88 meters (16 feet).

SAFETY IS AS SIMPLE AS ABC – ALWAYS BE CAREFUL!

Stable Rate Option

As of May 1, 2017, the Stable Rate Option for Lakeland REA members will be reducing from 7.5 cents/kWh to 6.49 cents/kWh for a period of 1 year.

The Government announced an RRO Energy price cap of 6.8 cents/kWh to be in full implementation from June 2017 to June 2021. The RRO fluctuates monthly based on the energy market.

During the period from June 2017 to June 2021 that the rate ceiling is in effect, members on the Regulated Rate Option (RRO) will pay the lower of the market rate or the government's ceiling rate.

If you have any questions in regards to the Stable Rate Option, please call the office at 780-632-6112.

Energizing or Idling Services

Do you have a site that is energized, but doesn't need to be? Let us know and we can idle that service and lower your monthly costs.

Or maybe you have a site that is idled and you'd like to energize it for the spring. Give us a call and we'll energize it as quickly as possible.

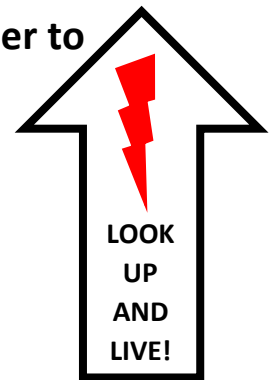

Did You Know?

That each year in Alberta, over 100 line contacts involve farm equipment.

Please remember to

LOOK UP!

We have stickers available at the office if you would like to put some on your equipment.
