Scholarships

Lakeland REA Ltd. is proud to announce our Scholarship Program is now available to children or grandchildren of our members.

Lakeland REA Ltd. recognizes the incredible commitment, hard work and financial funding it takes for students to achieve their education goals which is why we developed our Scholarships Program. A \$500 scholarship will be awarded to one male and one female. The scholarships are based on a combination of accomplishments including academic, non-academic, volunteerism and personal endeavors.

For more information, please contact the office or refer to our website – www.lakelandrea.com under the Watt's Up tab.

Tree Trimming and Planting

Trees and other plants growing near power lines must be maintained so they do not interfere with the electrical system. Otherwise, outages and safety hazards occur.

If there are trees which have grown into the line, we DO NOT encourage you to trim them yourself as trees become conductors of electricity when they are in contact with the power line and run the risk of electric shock.

With the extremely dry grass, and strong winds we have been experiencing, the risk of a fire starting due to trees coming in contact with a powerline and sparking are extremely high.

When planting trees along or close to power lines, please ensure that they are planted a minimum 8.5m (28 feet) from the line. For species which grow taller than 8.5m or 28 feet, please plant with a horizontal spacing greater than the expected full grown mature height.
